Warning: This email originated from outside of CDFW and should be treated with extra caution.

Attention CRCPTF members,

This following information was received this morning and is circulating through our local Farm Bureaus and some of our Ag, Dairy and Ranch partners. If additional info is learned we will pass it on.

Thank you and "Be Safe"!

Alert Date: 03/25/2020

State: California

Activists Involved: Direct Action Everywhere

Activists with Direct Action Everywhere (DXE) are planning to trespass onto farms as part of their "Cancel Animal Ag" campaign in response to COVID-19. Based on video footage posted on social media we believe they have already started accessing barns. The activists claim animal agriculture is to blame for the coronavirus pandemic and are asking California Governor Gavin Newsom to "cancel animal ag."

All farms in California (especially Sonoma County and other areas that have been targeted by DXE in the past) should be on high alert. This action may also be replicated in other states.

Dairy associations are on high alert.
